To Advertisers.

All transient advertisements in the Democrat are due and payable in advance, according to our published terms, and henceforth payment must be made in advance or the advertisements will not appear.

The Know-Nothings enjoy themselves very much over the disorganized condition of the old parties. The Whig party is dead, and the Democratic party is divided and dispirited—rent to pieces by the slavery question, and some of them seduced away by same. Such reflections are very happy and refreshing for the brethren. They have not learned to look at home. There is not a faction in the country so utterly distracted and divided as this same Know-Nothing concern.

The New York Commercial Advertiser, an old line Whig paper, speaks in the following comical terms of the good order which prevailed at the late election in that city. Will Louisville again trust her reputation to those who have made her name a by-word of reproach throughout the land?

We cannot pass over this exciting election without some willing testimony to the peaceful and becoming manner in which the whole business was conducted. We have never seen an election so properly conducted in every respect. Much of the credit belongs to the efforts of the most zealous and vigorous measures adopted by May Wood, the chairman of the committee, to effect this reform is the consequence of increasing efforts to improve the police, and the other parts of the machine, to facilitate, and to habituate them to prompt and full obedience.

At every poll we visited during the day it found a strong attachment of the police, and their commanding officers, to the cause of the people.

At midnight, wherever the tickets were properly counted, we find the cause of the people triumphant. In the after-piece, Benson and Mrs. St. John created much amusement.

To-night Miss Lee will play Juliet to Hanley's Romeo, and we think she will do better than as Julia. The after-piece is a new one.

MARITAL.—Thomas Francis Meagher, Esq., the Irish exile, and now a member of the New York Assembly, has done more for his party than any other party in the country.

Resolved, That the American party, by deeds, has done more for this country than any other party in the country.

Resolved, That the South should not profit by it; that is, that Kansas should not come into the Union as slave state. (See their resolution another column.) Are the Know-Nothings Kentucky all going over to the Abolitionists?

**More Abolitionism.**

The Commonwealth rejoices over the election of Gardner, notwithstanding his boast that he bolted from the Philadelphia Convention, and notwithstanding that resolution of his party that they had done more for (negro) freedom than any other party. What is Kentucky coming to?

THE EVERLASTING NIGHTS OF AUGUST 20TH AND 21ST, 1855, were published in New York, by F. & A. M., & Co., Facsimile of Spiritualism Exposed. By F. C. Ewer. New York: Samuel Hause.

Mr. Ewer wrote for the Pioneer, a monthly magazine of California, a fictitious narrative of a death-bed scene, and of wonderful revelations in regard to the future world. This work contained the most marvellous stories, such as that of a magnet spontaneously turning entirely round, the hand of a corpse seizing a living man's hand, and writing long rhapsodies, of the corpse rising up and speaking, as the former occupant died a second time and went into a third universe.

The United States Government has just recovered a judgment of about \$15,000 against Mr. Hyde, late Collector of the port of Detroit. The suit has been pending some time.

A FAMILY OF GODENSTEINS.—On the last trip to New Orleans, from New Orleans to St. Louis, Madam Godenstein, an emigrant, passenger on the boat, was delivered of a child at one birth. They were three boys and one girl—weighing in aggregate 31 pounds. They were named after the boat and officers, viz: The god received the name of Fall City Godenstein. Captain Henry W. Smith, Fred. Haines and Wm. Dixon, Law Godenstein, &c. This is one of the most remarkable occurrences of the kind on record. The mother and children are all doing well when they left the boat.

St. Louis Republican, 10th.

PANTALOONS WITHOUT SUSPENDERS.—Professor LaBorde, of South Carolina College, in his recent work:

As the men have concluded to dispense with shoulder straps, some men especially in the city, have thought they would prove pantaloons to be worn without suspenders. The men now start the streets with their pantaloons tightly buttoned, side by side with the women whose skirts or petticoats are too tight around their persons. Upon a fair day, the evil of this is very evident, cases, pressure upon the vital organs, impairs the health, protracts, pain, want of development, deformity, disease, and premature death.

The New York Parochial Journal says: As we walk the streets of our city, we see scores of boys from twelve to sixteen years of age, with their pants huddled very tightly around their disengaged testicles, preventing growth at this rapidly growing age, and the result is a generation of dyspeptic, pale-faced, puny apoplexy for men.

It is devoted to music, as its title implies, and is supplied at \$1.00 per year.

The Weekly Democrat, with or without engravings, can be obtained at the desk after 3 o'clock this morning. Price five cents per copy.

The Democrats of Alabama propose to meet in State Convention at Montgomery during the third week in January, to appoint delegates to the National Convention in Cincinnati, which is to meet some time next year.

Rev. Wm. Hyer, for many years a highly honored and useful citizen of Memphis, died on the 21st inst., in Vicksburg, where he had resided for the last two years. He was a modest, unassuming, Christian gentleman, endowed with talents, a superior education, and unspotted character.

By a return of the census of Nebraska Territory, first taken, the inhabitants number 4,165—thirty-one hundred and two reside south of the Platte river.

The continued wet weather for several days past has rendered it impossible for the street scavengers to work, and as a consequence, the streets in the central portion of the city stand forth most unwholesome odors. Let the force be doubled and remove the nuisance as soon as possible.

The National debt of England on the 31st of March of the present year was £751,643,818; the amount of interest payable on which was £22,557,355.

The National organ of the Hindoos or Know-Nothings at Washington, has not yet closed its first volume, and its second editor has become weary of the load he had to carry. Sound ships do not usually change captains with every voyage.

Gov. Price, of Missouri, has submitted his message to the Legislature of that State. The entire document is taken up with discussion of the policy of the State in regard to Railroads.

**Todd's Tobacco Warehouse.**

We call the attention of tobacco growers to the advertisement of Mr. J. L. Bridges, proprietor of the established warehouse, corner of Seventh and Main streets, known as Todd's tobacco warehouse.

Bridges is very generally known to tobacco growers and dealers throughout the country, and is one of the most prompt and efficient men known to this important branch of trade in our city.

A business correspondent writing from Stephensport, Ky., says: "The President of the Know-Nothing Council at this place, and several of its members, publicly withdrew from the order the other day, and are now denouncing it as a secret unprincipled faction."

Council to a public meeting in Kentucky, and the author would be set down as stark crazy, or suspected of an interest in the Underground Railroad.

And yet this party, with a horror of Catholics in one place, and their support of that sect in another; with their horror of slavery in the North, and their zeal for it South; their hatred of foreigners here, and flattery of them yonder, expect and intend to elect a President, and uphold office and spoils; and the poor soul rent into numbered factions, and monting opposite political creeds and purposes, talk like baboons about dissensions and differences in the Democratic party. Take away their love of spoils, the wild hunt for office, and their common hatred of Democracy, and they would not have, individually or collectively, an object in the world.

Put their representatives in Congress and the old will fly as they did at Philadelphia. Put a representative of theirs in the executive chair and he would explode with opposite creeds, and scatter his disjointed limbs to the four winds. The White House and the Capitol at Washington would be worse than the tower of Babel. God save the country from such a calamity.

Green tea and coffee, however, are the best stimulants for the brain, securing quietness and pleasant dreams, instead of horse-tongue after supper. Indigestion, and that condition which is termed a weak or irritable stomach, constitute a most fruitful source of visions. The immediate or indirect influence of repetition, so totally altering the sensations and the disposition in waking moments, is a proof of its power to derange the circulation of the blood, and to bring anomalies in sleep. Why Females Suffer in Health.

## THE MARRIED WOMAN'S

### Private Medical Companion,

BY DR. A. M. MAURICEAU,  
PROFESSOR OF DISEASES OF WOMEN,  
One Hundred Editions (60,000) Issued, pp. 250.  
A standard work of extensive practical information, classed as one of the great Trade-Sales of New York, Philadelphia, and other cities, and sold by the principal booksellers in the United States.

Every woman can here discover, by comparing her own symptoms with those described, the nature, character, and cause of her complaint, and a spared much anxiety and suffering, as well as the necessities of making known and curing the malady of which she is in rapport. The wife about becoming a mother has often need of instruction and advice in respect to her situation, which she will find here. This book tells her what is the matter, and tells her what to do for it, in simple but choice words, and such as she can understand.

Those suffering from obstructions or irregularities peculiar to the female system, or from prepuces of the penis of the woman, or from other maladies, will find each in its page the means of prevention, amelioration, and relief, as also the names of physicians, which she can resort to.

Much distress of mind, as well as thousands pecuniarily, might be saved to every husband, if the simplest laws appertaining to the marriage state were better understood. The author has given a clear account of the rights and wrongs of the marriage state, and will each find in its pages the means of prevention, amelioration, and even a medical man in respect to complaints peculiar to the female only.

In a copy of "The Married Woman's Private Medical Companion," every woman has a physician that knows and describes her every symptom, feeling, and ailment and which she can consult at all times without violence to her sensitiveness.

Advertisement of a letter from a gentleman in Dayton, Ohio.

DR. A. M. MAURICEAU—My Dear Sir: My wife has been perfectly and uniformly healthy since our marriage, in consequence of your anguish and suffering me in those months before and during confinement; every success we have had in our married life is due to your skill in her, putting her life in imminent danger, and which was on the last occasion departed. I suppose that this is the reason why you have not yet received my money, as I meet the worst. I heard your highly spoken of as containing some merits rendering my case. On it came, and I was greatly disappointed. I could not afford my distressed mind, and the joy it gave me, to pay for it. Your services provided a remedy. It opened a road to me which I little expected was possible. But for your skill and care, my wife would have been dead in all human probability my wife would have been dead.

Yours very truly, THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION, TO ANY PART OF THE UNITED STATES, THE CANADAS, AND BRITISH PROVINCES. ALL LETTERS MUST BE POSTED PAID, AND ADDRESSED TO DR. A. M. MAURICEAU, No. 124, NEW YORK CITY, PUBLISHERS OF "THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION," AND "THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION," IN BOSTON, MASS., AND NEW YORK.

# DAILY DEMOCRAT.

From the Evening Edition.]

Reinforcements have been sent to Gen. Smith, of Texas, with instructions to prevent incursions into Mexico.

A FORTUNE DEALER IN HORSES.—A Newburyport (Mass.) paper states that the most beautiful and costly horse in that city is now in course of erection by Mr. Lorenzo Papanti, a celebrated teacher of dancing.

A STRIKE.—The cigar makers of Suffield, Ct., went to work again on Monday, a compromise having been made between the manufacturers and the men, by which the latter are to receive twenty-five cents advance per thousand on former prices. The strike has been kept up a month.

LOSS OF IMPORT STOCK.—The ship Meteor, that arrived at New York on Wednesday, from Liverpool, lost three valuable breeding horses and three cows, during the stormy weather lately encountered. Three helmsmen arrived alive, though showing marks of a severe voyage.

Saturday last two of the detective police arrested a young man named Samuel Mathis, who was robbing the baggage bag of the Louisville mail. He confesses his guilt, and says that he was employed to drive the Express Mail Wagon, and that he abstracted the bags and opened them. It was taken before the Commissioners of Law, to answer before the U. S. District Court. The aggregate amount which he is said to be about four hundred and thirty dollars.—*Civ. Com. 10th inst.*

The Misunderstanding with the United States.

The Morning Post says that, disagreeably as is the aspect of the question recently raised between the United States and England, the Spanish Minister to Hayti and Cuba, another cause of misunderstanding has also occurred between the U. S. State and England, of infinitely more gravity and importance. The Post then refers to the complication arising from the alleged acts committed by Captain Sir E. Head and Sir Gaspar Martiniello, the Spanish Minister to the United States, as regards foreign enlistment.

The Post says the English instructions as to enlisted men were framed most carefully and scrupulously to avoid any violation of the law, and the sensibilities of the American Government on this particular point appear very remarkable, when due respect and flagrant violations of public law in Texas, Mexico, and Cuba are borne in mind.

As regards Hayti and Cuba, the Post is inclined to think that Uncle Jonathan, with all his bluster, is far too wise seriously to embroil himself with the greatest power in the world, and is glad to allow to himself a respite from his military and falling Administration, whose wish is to pander to the most vicious element in the American character. England and France have the means and determination to repress the American spirit of lawlessness aggression, though the power of the British Cabinet may be necessary for the accomplishment of these purposes.

WORTHY OF PUBLIC CONFIDENCE, BECAUSE OF ITS SINGULAR AND ENTIRE HARNESSLESSNESS.

The following is one of the most celebrated cases in the United States, has been obtained, and a copy of it is attached to every bottle.

Extract of a Letter from Dr. J. W. HARRIS, New Haven, Conn., dated June 11, 1855.

"I have made a chemical examination of Rhododendron, Silk and Fancy Dye, or Antidote to Malaria, and have found no trace of any of the ingredients, but have a found a particle of either in it, nor have I found any substance in its composition that would be injurious to health."

JAMES R. CHILTON, M. D., Chemist."

It is a notorious fact, therefore, that this Remedy destined not only to relieve the human species, but also to completely conquer war by preventing the taking of other medicines which do harm.

The Remedy is not only valuable, but it is also the most valuable in the world.

The Post concludes the leader and its remarks on the enlisted question by trusting that the presence of the formidable British fleet which is remaining at Bermuda will tend to cool the arrogance and over-sensitiveness of the American Government.

KARS, Monday, Oct. 1.

LETTER FROM AN ENGLISH OFFICER ENGAGED IN THE BUSINESS OF KARAKORUM.—"Last night the Russians attacked us in force, and (between you and me and the post) very nearly took Kars. The fight was a most bloody one, and lasted seven hours and a half, without once a second's intermission. The Russians left upwards of 2,000 men dead on the field, and were driven in headlong, wounded, and prostrate, must have exceeded 5,000."

What do you think of Kars after that?

I was not actively engaged, as they knew better than to attack my almost impregnable battery a second time; but I did great service with my heavy guns, and twice drove off a battery that had taken and turned upon us."

He was so proud. The Turks fought—not like lions, but like feds. I never saw such desperate recklessness of life. You can form some idea of what a desperate business it was, when I tell you that the Russian General, Karsikoff, was killed in his tent, from which a Haytian Sepoy was more conveniently threatened.
